

Foam-Matic 1.25 P / Foam-Matic 1.25 E

Mobile foaming with excellent foam quality

- Transparent 1.5 litres plastic tank (ideal filling capacity for foaming: 0.5 litres)
- Chemical resistant Viton resp. EPDM gaskets
- Flexible suction hose (optimal residual spray drainage)
- Ergonomic and efficient hand pump up to 3 bar operation pressure
- Protected safety and relief valve
- Large filling opening
- Red for acids (Viton) – blue for alkalis (EPDM)

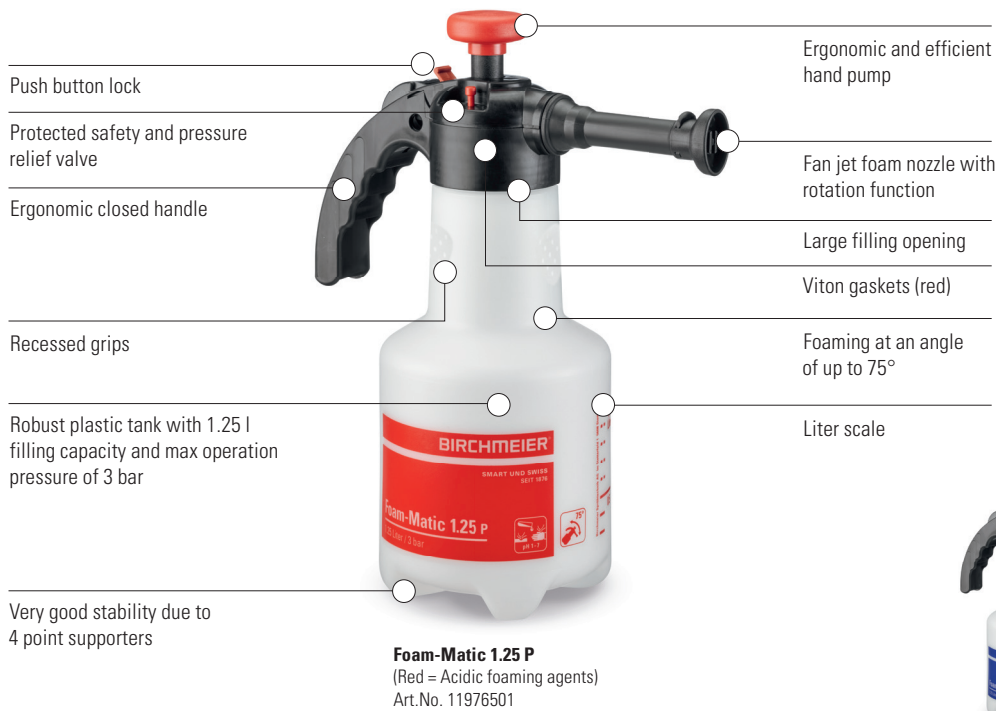

Mobile foaming

Thanks to dry foam long contact- and reaction time is achieved. Saves mechanical cleaning effort and therefore time, energy and chemical. High air content results in good and dry foam. Therefore low chemical consumption (rough estimate: 0.1 litre foam liquid covers up to 5 m² cleaning surface). Ideal for cleaning vertical surfaces and equipment.

Additional advantages of foam cleaning with Foam-Matic 1.25 P/E

- Optimal surface coverage with excellent optical control
- Reduction of the aerosol mist in the air
- Optimal foam quality and easy use with flexible suction hose

Convincing performance features!

Foam-Matic 1.25 E
(Blue = Alkaline foaming agents)
Art.No. 11976601
